

LIST OF PUBLICATIONS

Papers published in scientific journals

1. Z. Simon, Contributions to the theory of the preexponential factor of unimolecular reactions (in Roumanian), *Analele Univ. C. I. Parhon. Seria Stiinte Nat.*, **1957**, 14, 113-120.
2. Z. Simon, The possibility of fluorescence in molecules (in Roumanian), *Stud. Cercet. Fiz.*, **1958**, 9, 469-475.
3. Z. Simon, About predissociation of aniline (in Roumanian), *Stud. Cercet. Fiz.*, **1959**, 10, 290-300.
4. Z. Simon, Nonradiative transitions in β -naphthylamine (in Roumanian), *Stud. Cercet. Fiz.*, **1959**, 10, 317-328.
5. Z. Simon, C. Volanschi, Calculation of the shift of spectral bands in mesitylene, colidine and pyrilium derivatives (in Roumanian), *Stud. Cercet. Chim.*, **1960**, 8, 641-648.
6. Z. Simon, About the primary act of photochemical decomposition reaction of monosubstituted cobaltihexamine ions, *Canad. J. Chem.*, **1960**, 38, 2373-2379.
7. Z. Simon, On intramolecular radiationless transitions (in German), *Rev. Phys. (Bucharest)*, **1961**, 4, 105-118.
8. V. Sahini, Z. Simon, Study of infrared spectra in cis-trans isomery of coordinative compounds. II Correlation of vibrations of complex ions with those of free ligands (in Roumanian), *Stud. Cercet. Chim.*, **1961**, 9, 573-577.
9. Z. Simon, Calculation of shift of energy levels in diphenyl, phenylpyridine and phenylpyridine salts (in Russian), *Optika i Spektrosc. (Leningrad)*, **1962**, 12, 104-106.
10. I. G. Murgulescu, Z. Simon, Calculations of preexponential factors of some unimolecular reactions (in Roumanian), *Stud. Cercet. Chim.*, **1962**, 10, 11-30.
11. I. G. Murgulescu, Z. Simon, Preexponential coefficient and activation energy for the unimolecular decomposition of cyclobutan (in Roumanian), *Stud. Cercet. Chim.*, **1962**, 10, 31-37.
12. I. G. Murgulescu, Z. Simon, Kinetic study of thermal cis-trans isomerisation for some α,β -disubstituted ethylene derivations (in German), *Z. Phys. Chem. (Leipzig)*, **1962**, 221, 29-38.
13. Z. Simon, A.T. Balaban, Relative stability of aromatic monocyclic system appreciated by HMO methods (in Roumanian), *Rev. Chim. (Bucharest)*, **1962**, 7, 555-560.
14. C. Nicolau, C. Pascaru, Z. Simon, Charge-transfer-complexes in the benzidine series (in Roumanian), *Rev. Chim. (Bucharest)*, **1962**, 7, 1119-1211.
15. Z. Simon, A.T. Balaban, Study by the Hückel MO method of electronic spectra for pentaatomic pentacyclic aromatic and heterocyclic compounds (in Roumanian), *Rev. Chim. (Bucharest)*, **1963**, 8, 199-206.
16. Z. Simon: Preexponential coefficient for thermal decomposition of diazoderivatives (in Roumanian), *Rev. Chim. (Bucharest)*, **1963**, 8, 207-209.
17. Z. Simon, Radiationless transitions and luminiscence in molecules. Derivatives of the diphenylmetylium cation and other torsionable aromatic systems (in Roumanian), *Rev. Chim. (Bucharest)*, **1963**, 8, 211-216.
18. I. G. Murgulescu, Z. Simon, Radiationless transitions and photodissociation reactions in ketones and aldehydes (in Roumanian), *Stud. Cercet. Chim.*, **1963**, 11, 161-170.
19. A. T. Balaban, Z. Bârlădeanu, I. Bally, P. T. Fragopol, M. Mocanu, Z. Simon, Preparation and spectra of para-substituted 2,5-diphenyloxazoles, *Tetrahedron*, **1963**, 16, 2199-2207.
20. A. T. Balaban, M. Mocanu, Z. Simon, Charge-transfer-spectra of pyrylium iodides, *Tetrahedron*, **1964**, 17, 119-130.

21. A. T. Balaban, Z. Simon, Aromaticity Part. IV. On the Aromaticity of five membered rings containing boron and nitrogen heteroatoms, *Rev. Roum. Chim.*, **1964**, *9*, 99-104.
22. Z. Simon, M. Brezeanu, About trans-effect in planar complexes of divalent platine (germ.), *Rev. Roum. Chim.*, **1964**, *9*, 113-119.
23. Z. Simon: The molecular orbital method and photochemical decomposition for some cyclic and linear polyenes (in Russian.), *J. Fiz. Him.*, **1964**, *38*, 1609-1612.
24. A. T. Balaban, Z. Simon, Energy levels of pyrylium salts with para-substituted phenyl groups, *Rev. Roum. Chim.*, **1964**, *9*, 339-349.
25. C. Nicolau, Z. Simon, P. Dovlețiu, I. Pascaru, Study of some aromatic amines absorbed on Al₂O₃-SiO₂ (French), *J. Chim. Phys.*, **1964**, *61*, 819-825.
26. Z. Simon, Monomolecular processes in fotochemistry of poliatomic molecules (in Roumanian), *Stud. Cercet. Chim.*, **1964**, *13*, 697-724.
27. D. Cismaru, Z. Simon și C. D. Volanschi: Infrared absorbtion spectra of bismuthnitrate and bismuthylnitrate, *Rev. Roum. Chim.*, **1964**, *9*, 681-684.
28. A. T. Balaban, Z. Simon, Aromaticity constants, *Tetrahedron*, **1965**, *18*, 315-319.
29. A. T. Balaban, Z. Simon, Aromaticity Part. V. Stability of monocyclic aromatic compounds, *Rev. Roum. Chim.*, **1965**, *10*, 1059-1092.
30. Z. Simon, Lethal mutation hypothesis for the mechanism of the cytostatic action of alkylating agents, *J. Theoret. Biol.*, **1965**, *8*, 193-197.
31. Z. Simon, Multi-steady state model for cell differentiation, *J. Theoret. Biol.*, **1965**, *8*, 258-263.
32. Z. Simon, I. Bădilescu, Sensibility towards alkylating agents of seeds of different ploides, *Biochem. Biophys. Res. Comm.*, **1965**, *21*, 1-5, (1965)
33. S. Rosin, Z. Simon, Quantitative study of granulopoaets and quantification of values for mielotransfusion (in Roumanian), *Med. Intern.*, **1965**, *17*, 537-544.
34. Z. Simon, Recognition between biological molecules, *J. Theoret. Biol.*, **1965**, *9*, 414-421.
35. I. G. Murgulescu, Z. Simon, Kinetic studies on cis-trans isomerisations. II. Activation energiecalculations for stilbene and azobenzene-derivatives (in German), *Rev. Roum. Chim.*, **1966**, *11*, 21-28.
36. Z. Simon, Kinetic studies of cis-trans isomerisations. III. Photochemical isomerisations (in German), *Rev. Roum. Chim.*, **1966**, *11*, 35-45.
37. Z. Simon, The preexponential coefficient of unimolecular reactions (in Roumanian), *Stud. Cercet. Chim.*, **1966**, *14*, 173-234.
38. Z. Simon: Activation energy calculations for unimolecular reactions (in Roumanian), *Stud. Cercet. Chim.*, **1966**, *14*, 437-458.
